

Development & Maintenance of E-commerce Portal

About Client

A leading software company.

Business Need

Our client wanted to maintain a divine e-commerce portal that helps devotees perform archanas/virtual pujas in temples across India.

Proposed Solution

Vidyut successfully maintained the first of its kind portal in digital media space. The application has been developed in Microsoft technologies and is supported 24/7 from India.

Its is an online portal listed with more than 2000 temples, divine cassettes / CD, books, crafts etc. Customers all over the world can access and perform Pujas in selected temples. It allows customers to choose their books, cassettes / CD from the listed vendors. Payment can be done by Credit Card/Debit Card and net Banking options.

Key functionalities:

- Built-in shopping cart and payment gateway integration
- Gateway support for credit cards / online banking
- Online order status tracking
- Random content display for every page refresh
- Shipping cost function which will calculate the cost based on package weight and destination country
- Download option for
 - Devotional animated files
 - Devotional screen savers with chanting
- User registration system with Interface for login
- Mailing system & Referral system for users

Business features:

- Co-branding pages with customized shopping page
- Interface for co-brand company to check
 - No of visitors
 - No of confirmed orders & product details

Users

- More than 3000 registered users
- 10 concurrent users during peak time
